

COMMSCOPE CREDIT UNION REBRANDING

Earlier this year the board of directors for the CommScope Credit Union announced a rebranding project. The project began with an updated logo. Today, we announce the next step in the project with the launch of its new name: **CS Credit Union**.

The intent is to create a unique identity for CS Credit Union and separate it from CommScope, Inc., its sponsoring company. The CS Credit Union is a North Carolina state-chartered credit union providing financial services to, in large part, CommScope employees and their family members in the continental United States. It is separate from CommScope, Inc., a network infrastructure provider.

The CS Credit Union also provides the same financial services to General Dynamics in Catawba County, North Carolina.

The CS Credit Union's board of directors looks forward to the completion of this rebranding project with the launch of a redesigned website and mobile application. We will provide more details as soon as the new website and mobile app are ready.
